REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

This has been a year of tremendous success for the faculty and students of McCracken Middle School. We have launched several instructional initiatives that have enhanced the focus of our school day to include not just how we are teaching students but how well they are learning what is being taught.

The most fundamental shift we have undergone is a systemic change in the planning and assessment of instruction. We have adapted our entire daily schedule to insure that all teachers in each academic department share a common planning block to facilitate our commitment to data-driven instructional decision making. We may be the only school in the county to have accomplished this feat and we are very excited about the achievement gains this departmental model will afford our students.

Extensive use of the MAPS program next year will also give our math and reading teachers the opportunity to teach performance-based classes where students are within a twenty point productivity range giving their instructional efforts a high potential of effectiveness.

Use of "Best Practices and Effective Teaching Strategies" will continue to fuel our goals for 2005-2006:

- 1. 20% increased presence of African American and Hispanic students in Proficient and Advanced categories of PACT;
- 2. 20% reduction in students scoring Below Basic on PACT.

We are also setting goals to positively affect the school culture through:

- 1. 50% increase in parent involvement in the School Improvement Council;
- 2. 100% of our new teachers receiving a veteran teacher mentor for the induction year.
